

Section 1

A mockup of a sign-in page. It features a large white circle placeholder for a user logo on a reddish-pink background. Below the logo, the text "Sign In" is displayed in bold. Underneath, there are two input fields: one for "Email" and one for "Password", both containing six asterisks. A teal "Sign in" button is positioned below the password field. To the right of the button, the text "Sign up" is written in blue.

Section 1: Sign-In Page

Description:

This section presents a simplistic and intuitive sign-in interface.

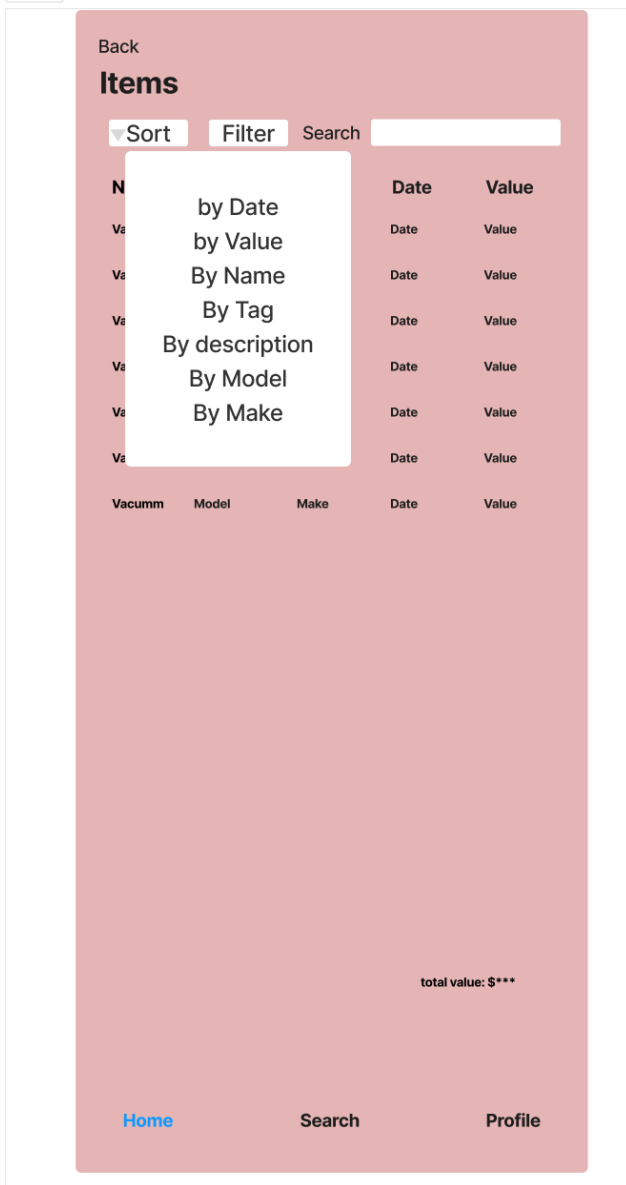

The primary focus is a large user logo. Below this, there are fields for users to input their email and password to sign-in process or to register as a new user.

Section 2: Items List

Description:

This section offers a comprehensive view of various items. There's a title bar at the top, followed by options to sort and filter the list and a search bar to search specific items. A tabulated list of items is showcased in the main page with their name, model, make, date, and value. At the bottom, there's a bar indicating the total value of the items displayed and navigation options.

Section 3: Sort Items List

Description:

The sort (and filter) shows an interface for sorting (and filtering) Items. Users can sort (or filter) items by a variety of criteria, such as date, value, name, label, description, model, and manufacturer. This feature helps users find and manage their items more easily.

Section 4: Items detail page

Description:

This section is designed for users to view or edit the detailed attributes of a specific item. Users can input or view various attributes, such as the item name, model, make, date, serial number, estimated value, description, and comment. At the bottom, there are buttons for confirming changes, viewing images, and deleting the item.

Section 5: Image upload page

Description:

See all the images about this item. Users can also upload images from their album or camera.

A user registration form with a light red background. At the top left is a "Back" link. Below it are five input fields, each with a label above it: "First name", "Last name", "Email", "Password", and "Re enter password". At the bottom is a red "Sign up" button.

Section 6: new user register page

Description:

This image shows a user registration screen. On this screen, the user will need to fill in their first name, last name, email, password and re-enter their password for confirmation. Once this information is completed, the user can click the "Register" button to create a new account. This is a standard registration process designed to collect basic information from the user to create a new account for them.

Section 7: user profile page

Description:

This is the user profile page where users can see their own profile information.
